

Replay Mechanism — Step-by-Step (3 activities: A → B → C)

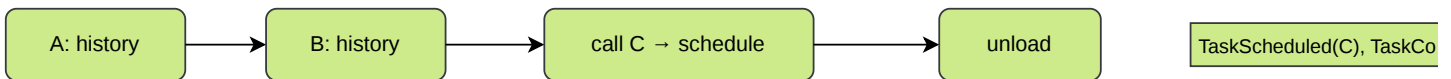

Run 1 (initial)

Run 2 (Task A is completed in history so schedules next Task B to be completed)

Run 3 (Task A and Task B marked as completed so Task C gets scheduled and then orchestrator unloads)

Run 4 (As task C gets done the orchestration gets completed.)

$\rightarrow Y)$

Completed($C \rightarrow Z$)
